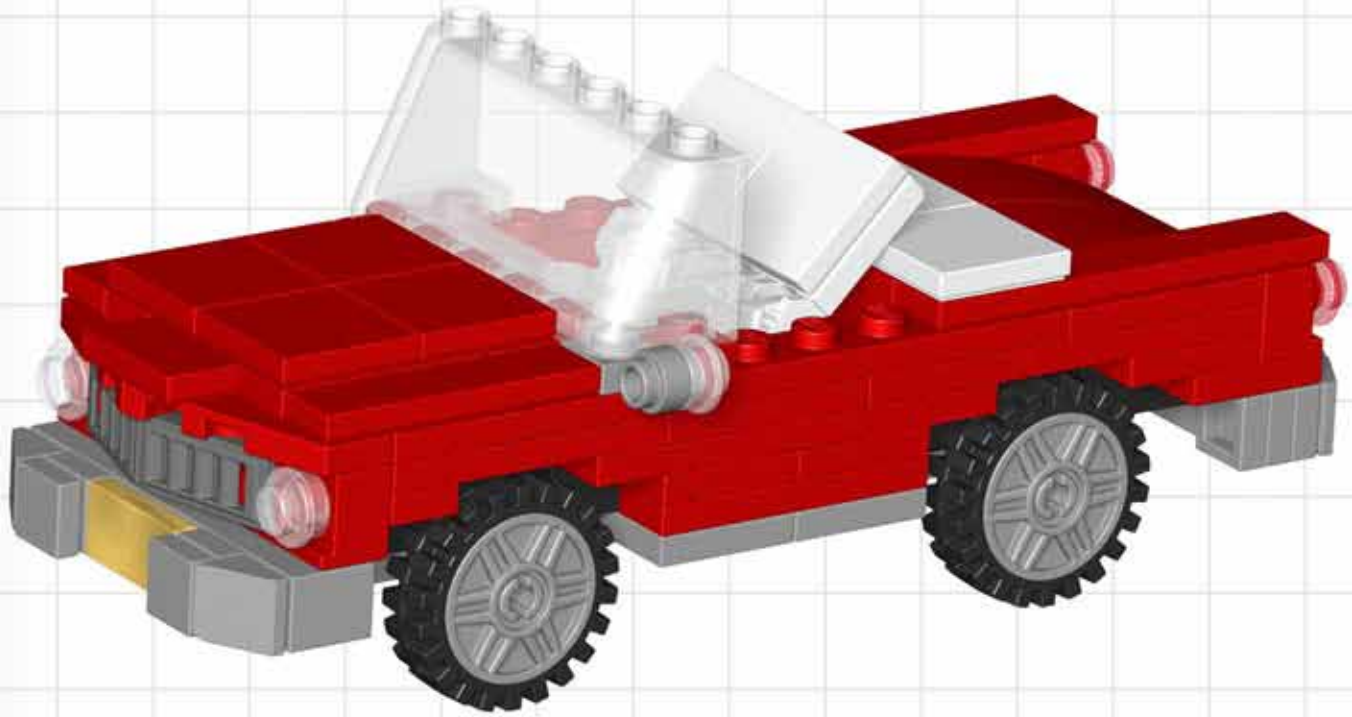
BOUW EEN CABRIO !

Een cabriolet is een sportwagen met een dak wat je helemaal kunt openen of sluiten, afhankelijk van het weer. Met mooi weer kun je lekker in je cabrio rondrijden en van de zon en een verfrissend briesje genieten. Voordat de eerste “gesloten” auto in 1910 werd gemaakt door Cadillac, waren alle auto’s cabrio’s!



Deze cabriolet kun je bouwen met LEGO stenen uit je eigen verzameling.
